GENERAL NOTES

- Contractor and/or subcontractors shall visit property to verify existing conditions. Any discrepancies shall be brought to the attention of the Architect prior to submitting a bid.
- All work shall conform to the requirements of the Standard Building Code and of state and local authorities having jurisdiction.
- All materials and equipment referred to in notes and keynote legends shall be new and furnished and installed under the work of this project unless noted otherwise to be furnished and installed by owner.
- Contractors and/or subcontractors shall employ skilled workmen to perform all work in accordance with the best standards of work for all categories of work in the project.
- Contractor and subcontractors shall coordinate their work with all other subcontractors to facilitate a smooth work progression.
- Contractor and subcontractors shall secure the owner's approval of any substitutions prior to installation. Owner shall supply to Contractor any substitutions in prompt attentiveness to the progression of work.
- Contractor shall obtain and pay for all required permits and approvals and shall notify and schedule all required inspections and approvals with the various authorities having jurisdiction.
- Contractor shall provide and maintain suitable protection for all employees and the public and occupants during the course of the work, complying with all applicable job safety regulations.
- Subcontractors shall remove from the site all debris, rubbish, and other materials resulting from their operations. All such material must be disposed of legally and contractor will be responsible for all fees associated with said removals. Subcontractor shall maintain the project site in a neat and safe condition at all times.
- Contractor shall submit all samples and color selections to Architect for approval.
- Contractor shall verify all dimensions prior to commencing any construction work and shall bring any discrepancies to the attention of the Architect.
